

Hindustan College of Science and Technology, Farah-Mathura

DEPARTMENT OF INFORMATION TECHNOLOGY

Date: 20th Nov, 2017

Vision of the Department

Information Technology undergraduate program empowers students with research and training-based education to become global technical leaders and entrepreneurs, creating positive societal impact.

Mission of the Department

1. Foster innovation, research, and entrepreneurship through real-world projects and industry collaborations.
2. Develop ethical global leaders with theoretical and practical education, critical thinking, and social responsibility.
3. Provide outcome-based education for holistic development, integrating technical skills with leadership and teamwork.

PEOs

1. Equip students with IT knowledge, critical thinking abilities, and leadership qualities through research-oriented education to become global entrepreneurs.
2. Prepare students to solve real-world problems and positively impact society through practical experience and industry collaborations.
3. Develop socially responsible global leaders with high moral and ethical values through community engagement and personal/professional growth opportunities.

PSOs

1. Equip students with the latest IT knowledge and skills to tackle real-world challenges.
2. Foster leadership, critical thinking, problem-solving, and communication skills for IT careers.
3. Encourage entrepreneurship and innovation through research, start-up projects, industry collaborations, and business skills.

Department of Electronics & Communication Engineering

Date: 10/01/2018

Vision

To become a centre of excellence in Electronics & Communication Engineering and create competent professionals in thrust areas for the development of society and the nation.

Mission

- To educate the students with state of the art technologies through an innovative teaching – learning process.
- To develop the required skills to solve complex real time problems using the latest tools and techniques.
- To develop the spirit of innovation and human values to fulfill the needs of society.

Department of Electrical and Electronics Engineering

VISION

To become a creative and globally competent Electrical Engineering department that contributes to national and regional socio-economic growth by creating globally competent electrical engineers who can address millennium issues to achieve sustainable socio-economic development.

Mission

- M1 The dissemination of knowledge among students by means of contemporary curricula and cutting-edge instructional strategies in the fields of electrical engineering and other interdisciplinary fields
- M2 To cultivate personality qualities in students across multiple dimensions while emphasizing ethical ideals and addressing national needs.
- M3 To enable students to build skills in tackling complicated engineering problems and to foster collaborative and diverse research skills in order to deliver new solutions to real-world challenges.

Vision of the College

HCST strives to impart a holistic knowledge-centric environment to serve humanity by providing research-oriented technical education to nurture global leaders and entrepreneurs.

Mission of the College

1. Create an ecosystem to foster a culture of innovation, research, academic excellence and entrepreneurship.
2. Nurture technically competent and socially committed global leaders with high moral and ethical values.
3. Impart outcome based education to facilitate students for their holistic development.

Department of Biotechnology

Vision

To be a premier department in biotechnology, providing research, training, technical, and entrepreneurial skills that are relevant to industry and society.

Mission

- Provide quality education that emphasizes innovation and research skills to prepare students for technical and entrepreneurial roles in biotechnology.
- Train and develop students into skilled professionals with technical competence and leadership abilities.
- Foster a culture of social and ethical responsibility, nurturing graduates committed to holistic development.

Vision of Department

To be in the forefront of Computer Science and Engineering through academic excellence and research to successfully contribute to the country's nation-building initiatives, fostering ingenuity, values, and quality.

Mission of Department

Our mission is to strive for excellence in teaching, research, and entrepreneurship:

1. To nurture the students in both theory and practice in the field of basic sciences and Computer science and engineering
2. To adopt a comprehensive strategy built on excellence, analytical ability, initiative, creativity, and innovation in computer science and engineering with focus on interdisciplinary fields.
3. To aid in the nation building by responding to industry and societal demands.
4. Instill ethics and morals to develop work dignity and to serve mankind.
5. Provide the students with an education centered upon well defined outcomes in order to foster their holistic growth.

Vision and Mission of Department of Civil Engineering approved by IQAC

Vision:

To become a leading department in the field of Civil engineering and create competent professionals in emerging areas to meet global challenges.

Mission:

1. To nurture civil engineers with technical skill and ethical values to serve society and the nation.
2. To promote innovation in eco-sustainable construction technologies to face ever-evolving challenges.
3. To serve the construction industry through the dissemination of knowledge and emerging technologies.

Department of Mechanical Engineering

Vision & Mission

VISION

The department endeavors to create qualified human resource with industry as well as research-oriented environment required to meet the upfront challenges in core sector and in different emerging fields.

MISSION

- To deliver quality technical education and entrepreneurial skills required to meet the dynamic and global challenges of the industry.
- To promote knowledge-based society through concurrent teaching, ethical and moral practices to pursue research activities.
- To impart collaborative learning practices for cutting-edge technologies.

CHEMICAL ENGINEERING DEPARTMENT

Vision

Chemical engineering program coupled with excellence in education, training and research in the field of Chemical Engineering to serve as a valuable resource for industry and society.

Mission

- To provide students with updated knowledge of science and technology, to become competent chemical engineers without compromising professional ethics and moral values.
- To develop infrastructure that promotes creativity and an entrepreneurial culture.
- To foster leadership that supports the administration, advancements and regulation of chemical engineering education and the engineering profession.

Vision and Mission of MBA Department
approved by IQAC

Vision:

To attain global prominence by developing though leadership, innovative solutions, and responsible business leaders/Entrepreneurs through flexible, values-based management education driven by high impact research.

Mission:

1. To Provide high-quality and values-based management education to nurture business leaders with global outlook.
2. Committed to conduct cutting edge research to contribute to the body of knowledge in management and offer innovative solutions to our stakeholders.
3. Integrating technology and management for a sustainable world.
