Date: 20 Jan 2020

Circular

Registration for Value-Added Course: "Application Design (VACIT-003)"

Dear students,

We are pleased to announce a valuable opportunity for 3rd Year and Final Year students to enhance their skills and knowledge in the field of "Application Design". This value-added course has been meticulously designed to equip you with essential practical skills and theoretical insights into designing innovative and user-friendly applications. We believe that this course will not only complement your existing curriculum but also open doors to exciting career prospects in the rapidly evolving world of technology.

Course Details:

Course Name: Application Design Course

Duration: 01 February 2020 - 10 June 2020 (30 Hrs)

Registration Deadline: 31 January 2020

Registration Process:

To participate in this valuable opportunity, interested students must register themselves by 31 January 2020. To register, kindly contact Mr. Mohit Singh, Assistant Professor in the Department of Information Technology. Mr. Singh will guide you through the registration process and address any queries you may have.

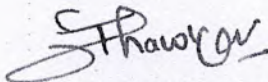

Please note that this course is mandatory for all the students of 3rd year/4th Year IT department. Therefore, we encourage you to register at the earliest to secure your participation.

We look forward to your active participation in this value-added course, and invest in your future by taking advantage of this exceptional learning opportunity. The "Application Design" course will undoubtedly add value to your skillset and broaden your horizons in the field of Information Technology.

For any further information or clarification, please feel free to contact the undersigned.

Thank you.

Sincerely,

Mr. Shankar Thawkar
HOD, IT

Head
Department of Information Technology
Hindustan College of Science & Technology

VISION OF THE DEPARTMENT

Information Technology undergraduate program empowers students with research and training-based education to become global technical leaders and entrepreneurs, creating positive societal impact.

MISSION OF THE DEPARTMENT

- Foster innovation, research, and entrepreneurship through real-world projects and industry collaborations.
- Develop ethical global leaders with theoretical and practical education, critical thinking, and social responsibility.
- Provide outcome-based education for holistic development, integrating technical skills with leadership and teamwork.

ABOUT

THE DEPARTMENT

Department of Information Technology was established in the year 1999 with an objective of imparting quality education in the field of Information Technology. Department of IT was accredited by National board of Accreditation (NBA) in 2006.

The department is located in a sprawling environment with a highly qualified and experienced faculty. The department works with the objective of addressing critical challenges faced by the Industry, society and the academia. Perhaps even more important is our unceasing commitment to our students, helping them to learn, grow, develop, and achieve their goals in their pursuit to excel in their professional career.

The department also have a student association QuBIT that provides a platform to future engineers to learn new technological innovations and also provide industry exposure to the students, by organizing workshops, seminars & other events.

ABOUT

THE PROGRAM

The program is designed for individuals who are interested in learning about the design process, software and application. It covers the basics of design and the concept of user-centric design. Students will learn about the various steps involved in designing an application, including market research, problem definition, analysis, planning, and testing the prototype. The program also covers the process of designing an application, including understanding user requirements, creating personas, and designing a prototype. Students will learn how to perform user testing and gather feedback to improve the application. The program provides hands-on experience and equips students with the skills to design an application that is user-friendly and meets the needs of the target market. Overall, the program is a comprehensive introduction to design, software and application and provides a solid foundation for those interested in pursuing a career in this field.

Objectives

1. To provide an overview of the design process and software and application.
2. To introduce the concept of user-centric design and the various steps involved.
3. To familiarize students with the process of finding problems and conducting market research.
4. To teach the process of designing an application, including understanding user requirements, creating personas, and designing a prototype.
5. To equip students with the skills to perform user testing, gather feedback, and make necessary modifications to improve the application.

COURSE

OUTCOMES

CO-1: Understand user-centric design, conduct market research, analyze problems, and design & test prototypes.

CO-2: Gather user requirements, brainstorm, conduct interviews, create personas, and develop user stories.

CO-3: Learn system architecture, create flowcharts, design transitions, work with vector images, and develop prototypes.

CO-4: Prepare questionnaires, conduct user testing, gather feedback, make modifications, and release the final application.

PSO1:

Equip students with the latest IT knowledge and skills to tackle real-world challenges.

PSO2:

Foster leadership, critical thinking, problem-solving, and communication skills for IT careers.

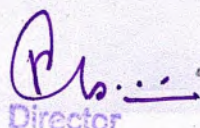

PSO3:

Encourage entrepreneurship and innovation through research, start-up projects, industry collaborations, and business skills.

COURSE OUTLINE

Application Design (VACIT-003)

Module 1: Introduction

- Introduction to Design, Software and Application
- Concept behind the user centric design
- Various steps used to design an application, finding problems
- Market research
- Introduction to problem definition, analysis, planning
- Designing & testing the prototype.

Module 2: Designing an Application - I

- Understanding the user requirements
- Brainstorming
- User interviews
- Persona
- User stories

Module 3: Designing an Application - II

- Introduction to System, Subsystem
- Integrated Modules, Procedures and Functions
- Flow Chart, transitions
- vector images, prototype & wireframe.

Module 4: User Testing

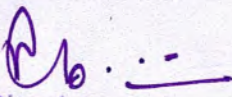

- Questionnaire preparation
- User testing
- Feedback & reviews
- Modifications & final release

COURSE OUTLINE

Application Design (VACIT-003)

Module 1: Introduction

- Lecture 1: Introduction to the course, design, software, and applications.
- Lecture 2: User-centric design and its importance.
- Lecture 3: Steps used to design an application.
- Lecture 4: Finding problems and market research.
- Lecture 5: Introduction to problem definition.
- Lecture 6: Problem analysis and planning.
- Lecture 7: Designing a prototype.
- Lecture 8: Testing the prototype.
- Lecture 25: Best practices for releasing an application.
- Lecture 26: Post-release testing and feedback.
- Lecture 27: How to handle user feedback and reviews.
- Lecture 28: Common mistakes to avoid in application design.
- Lecture 29: Future trends in application design.
- Lecture 30: Course review and recap.

Module 2: Designing an Application – I

- Lecture 9: Understanding user requirements.
- Lecture 10: Brainstorming techniques.
- Lecture 11: User interviews.
- Lecture 12: Creating personas.
- Lecture 13: User stories and how to create them.

Module 3: Designing an Application – II

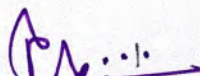

- Lecture 14: Introduction to the system, subsystems, and integrated modules.
- Lecture 15: Procedures and functions.
- Lecture 16: Flow charts and transitions.
- Lecture 17: Vector images and their uses.
- Lecture 18: Introduction to wireframes.
- Lecture 19: Creating a prototype using wireframes.

Module 4: User Testing

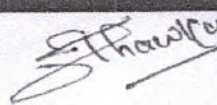

- Lecture 20: Questionnaire preparation for user testing.
- Lecture 21: Conducting user testing.
- Lecture 22: Feedback and reviews.
- Lecture 23: Modifying the prototype based on feedback.
- Lecture 24: Finalizing the application for release.
