

## **Industrial Visit for 3<sup>rd</sup>-year students of the IT Department in October 2017 at Franciscan Solutions Gr. Noida and CETPA Infotech Noida**

The third-year students of the IT department of HCST, Mathura recently had the opportunity to visit two well-known IT companies in the National Capital Region - Franciscan Solutions in Greater Noida and CETPA Infotech in Noida. The visit took place in October 2017 and aimed to give the students a better understanding of the kind of work done in the IT industry and the skills required to excel in this field.

(3<sup>rd</sup>-year students during Industrial Visit)

The first stop of the visit was Franciscan Solutions, a leading IT company that specializes in providing software solutions for various industries. The students were greeted by the company's management team and were given a brief presentation about the company's history, services, and the kind of work that they do. They were also given a tour of the company's facilities, including the development and testing departments, which gave the students a first-hand experience of the company's work culture and the kind of projects they undertake.

The students were impressed by the company's state-of-the-art infrastructure and the use of cutting-edge technologies. They also appreciated the company's emphasis on teamwork and collaboration, which they felt was vital for success in the IT industry. They also learned about the various skills required to excel in the field, such as programming languages, software development methodologies, and project management.

The second stop of the visit was CETPA Infotech, a leading IT training and development company. The students were given a presentation about the company's services, which included training and certification in various technologies such as Java, .NET, and Python, among others. They were also given a tour of the company's training facilities, which impressed the students with their modern infrastructure and the use of advanced technologies for training purposes.

The students were particularly impressed by the company's emphasis on practical training and hands-on experience, which they felt was crucial for success in the IT industry. They also learned about the importance of certifications and how they could help them in their future careers.

Overall, the visit to Franciscan Solutions and CETPA Infotech was a valuable learning experience for the students of the IT department of HCST, Mathura. They gained a better understanding of the kind of work done in the IT industry, the skills required to excel in this field and the importance of practical training and hands-on experience. They also appreciated the use of cutting-edge technologies and the emphasis on teamwork and collaboration. The visit was a great opportunity for the students to see firsthand the kind of work that they could expect in the industry and to prepare themselves for the future.

## **Industrial Visit for 3<sup>rd</sup>-year students of the IT Department on 31<sup>st</sup> March 2017 at APTRON, Noida**

The IT department of HCST, Mathura had the opportunity to visit the APTRON, Noida in March 2017. The primary objective of the visit was to gain insight and hands-on experience in the Cisco Lab. The visit was organized and coordinated by the faculty of the IT department, and a group of final year students were selected to participate in the visit.

(3<sup>rd</sup> year students during Industrial Visit)

On the day of the visit, the students were welcomed by the management team of APTRON and were given a brief overview of the organization and its operations. The students were then taken to the Cisco Lab, where they were given a detailed demonstration of the various Cisco technologies and equipment used in the lab. The students were particularly impressed with the state-of-the-art equipment and facilities available in the lab.

The students were then given the opportunity to work on the equipment themselves and were provided with guidance and support by the lab instructors. They were able to work on a variety of Cisco technologies such as routers, switches, and firewalls. The students were also given the opportunity to work on Cisco's networking protocols such as OSPF, EIGRP, and BGP.

During the visit, the students were also given a presentation on Cisco's CCNA certification program. The presentation covered the various aspects of the program, including the curriculum, the examination, and the benefits of obtaining the certification. The students were also given information about the various career opportunities available for Cisco certified professionals.

The visit to the Cisco Lab at APTRON was an enriching experience for the students. They were able to gain hands-on experience with Cisco technologies and equipment, which will be beneficial for their future careers. The students also appreciated the opportunity to learn about the various career opportunities available for Cisco certified professionals.

Overall, the visit to APTRON was an enlightening and informative experience for the students. They were able to gain a deeper understanding of the Cisco technologies and equipment used in the lab. The students also appreciated the opportunity to learn about the various career opportunities available for Cisco certified

professionals. The faculty of the IT department would like to thank the management team of APTRON for their warm hospitality and for making the visit possible.

## **Industrial Visit for 4<sup>th</sup>-year students of the IT Department in November 2016 at MULTI SOFT Infosystems, Noida**

On October 2016, a group of final-year IT students from Hindustan college visited MULTI SOFT Infosystems in Noida as part of their curriculum. The objective of the visit was to gain knowledge of recent trends and technologies in the field of IT.

(Students during Industrial Visit)

Upon arrival, the students were welcomed by the HR department of MULTI SOFT Infosystems, who gave them a brief overview of the company and its operations. The students were then given a tour of the facility, which included a visit to the various departments such as the development, testing, and support departments.

The students were particularly impressed with the state-of-the-art infrastructure and technology that was being used by the company. They observed the use of the latest tools and software in the development process, which helped in streamlining the workflow and increasing efficiency.

The students also got an opportunity to interact with the employees of the company, who shared their experiences and insights on working in the IT industry. They shared their knowledge on the latest technologies and trends in the field, which included topics such as artificial intelligence, machine learning, and cloud computing.

One of the highlights of the visit was a session on the 'Internet of Things (IoT)' which was conducted by a senior developer at MULTI SOFT Infosystems. The session was very informative and gave the students a comprehensive understanding of IoT and its various applications.

The students were also impressed by the work culture at MULTISOFT Infosystems. The employees were highly motivated and dedicated to their work, which was evident from the passion and enthusiasm they showed towards their projects.

Overall, the visit to MULTISOFT Infosystems was a valuable learning experience for the students. They gained a wealth of knowledge on the latest trends and technologies in the field of IT, and also got a glimpse into the workings of a successful IT company. The students are grateful for this opportunity and hope to apply the knowledge and skills gained during the visit in their future endeavors.

In conclusion, the industrial visit to MULTISOFT Infosystems was a great success and provided the students with a wealth of knowledge and insights into the IT industry. The company's use of state-of-the-art technology and infrastructure, along with the dedication and passion of its employees, made a lasting impression on the students. The college hopes to continue this partnership with MULTISOFT Infosystems in the future to provide more such opportunities to the students.
